# DISEASE CAN BE CURED WITHOUT THE USE OF MEDICINE. WE PROVE IT TO YOU

We Prove Every Statement We Make. We Do Not Ask You To  
Take Our Word As Final Evidence

When we say that disease can be cured without the use of medicine, we mean every word we say. Every word of it is true. We prove it by living witnesses. Not only in one case, nor a hundred cases, but in thousands of cases, where the patients state in joyful satisfaction that they have been cured after their cases had been considered incurable.

We are constantly on the lookout for other diseases to prove it on. We prove it to anybody—in fact, we want to prove it to everybody. We do not care what the disease is, nor how severe it is, nor how many other diseases are complicated with it. We can show you parallel cases that have been cured by the famous Thatcher Magnetic Shields and these cases are sound and well to-day as living monuments to the grand revitalizing power of Magnetism.

These Magnetic Shields keep the body bathed in a constant stream of Magnetism, which floods the system with its life and energy.

Patients are often told that they have incurable diseases. We want to tell you right here that nearly all of these cases can be cured, and we can prove it to you. More than seventy-five per cent. of all the patients that we have cured were first given all kinds of medical treatment, and they have been made sound and well by applying Magnetism according to scientific instructions.

All we ask of you is to send us a full statement of your case so that we may give it careful study, and we will advise you fully by letter just what can be done for you, and how it can be done.

We will agree to tell you all about it and prove to you, by evidence that cannot be denied, that all we say is true.

We will point you to cases of paralysis, consumption, diabetes, Bright's disease, locomotor ataxia, dyspepsia, rheumatism, tumors, nervous prostration, obesity and a hundred and other diseases that are called incurable. We can show you the most incontestable proof that we have cured them.

We have cured these cases after they had been given up to die.

When you write, don't be afraid that we are going to try to sell you something. We know that if we can prove to your satisfaction all we say, you will want the Magnetism which we are offering you with no urging from us, because we prove that they will do just what we say they will do. There is nothing else on earth to take their place, and do as much as they can do. Read the evidence in these letters from grateful patrons who have been cured.

### "THE SHIELDS HAVE SAVED MY LIFE"

#### EXTREME CASE OF PARALYSIS SPEEDILY CURED AFTER HAVING HAD TWO STROKES.

Dear Dr. Thatcher: I feel as though I must give my testimonial in hopes that it may induce some poor suffering one afflicted with paralysis to get the Shields and be cured who otherwise would give up in despair and die, for the Shields have saved my life, which I believe nothing else could ever have done, for as you have said, when I came into your office eleven years ago, a poor wreck of myself, so that I had to be half carried and could not help myself, you were afraid it was too late, but advised that if I was covered up with Shields that I might yet be saved. You did nearly cover me with the Shields and they did their work. They started the deadened blood and saved my life, which must otherwise have been of very short duration, for my bowels and stomach had stopped working entirely for nearly a week. They were the same as dead. I had had the second stroke. The root of the tongue was also totally paralyzed and the eyes were set; could not move them, and the brain was no far gone it felt just like a big basket on my shoulders, and I had to be held up while the Shields were being put on, for my whole strength had given out, and I think you had little hope of saving me, but you said you would try, and only for your timely efforts I would have stayed long. I began to feel better and improved with the road. I was then past 70 years of age. I am now very well alive, smart, and active and I advise no one to hesitate trying the Shields after they know what they have done for me and I will be glad to answer any letter of inquiry that may come to me from any person suffering with paralysis or similar form of disease.

### A CASE OF DIABETES GIVEN UP AS INCURABLE.

NEW BUFFALO, Mich., Aug. 17, 1906.

Dr. Thatcher, Chicago, Ill.  
Dear Dr. Thatcher: It is with great pleasure and a heart full of gratitude that I write you telling you of the good your Shields have done for me. When I visited you and purchased the Wide Belt and Lever Legging I was "all in" with that awful disease, Diabetes. Medical doctors had all failed to do me any good, and I was fast going to that everlasting resting place, the grave, but the hour I put on your Shields a great change came to me, and it caused me to right-about-face. They began to feel better at once, and

We have thousands of just such letters. They come unsolicited in every mail every day in the year. People write us from Maine to California, stating they have been cured of diseases that had been considered incurable. Do not give up hope—no matter if you have been told your trouble could not be cured. Investigate our claims. It is a duty you owe yourself. All we ask is for you to write us a full and complete description of your case and let us PROVE TO YOU THAT WE CAN CURE YOU. We will send you free of charge our new book, "A PLAIN ROAD TO HEALTH," by C. I. Thatcher, M. D., containing most valuable information on this subject, and we will advise you just what application of MAGNETISM will be required to cure your case. Write us fully to-day and we will take the same careful pains to advise you as if you could call at the office and see us in person.

### DECEMBER,

Shout now! The months with  
loud acclaim  
Take up the cry and send it  
forth!  
May breathing up her sweet per-  
fumes,  
November thundering from the  
North.  
With hands upraised, as with one  
voice,  
They join their notes in grand  
accord:  
Hail to December! say they all,  
It gave to Earth our Christ the  
Lord.

J. K. Hovr,  
The Meeting of the Months.

### A Merry Christmas

**W**HEN we were children a Merry Christmas was the kind of Christmas we anticipated. As we grew up we continued to use the word Merry in our greeting, but grown folks are not so merry as children, and we have sometimes forgotten to be so and have let ourselves grow serious, or dignified, or even sad with our greater responsibilities. 'This is a great mistake, for life after all is lived much better if we take things less seriously, and it won't hurt anyone to be merry and gay and to try to make Merry Christmas for himself and for others. We may imagine that we have serious things to consider, but the serious things stand just as good a chance of being wisely decided if we bring a merry heart to their consideration.  
Let us try this season to go back to our childlike light-hearted and merry view of life as well as of Christmas.

"A merry heart doeth good like medicine," said Solomon, and he was called a wise man.

### December

The last month of the year brings with it some reflections and we look back to the opening days of 1908 and remember that we had hopes and plans for the year and now we can see whether we have accomplished what we wished or not, and perhaps we can learn something from both our successes and our failures. It is a very good idea to look back and study the year with a view to learning its lessons, but before we can hope to profit by such a review we should resolve that our judgment of events shall be quite fair and not be too greatly blinded by self pity, for we will often find that we were ourselves to blame for what was an mis and if we will admit that fact we may be better able to meet the conditions of another year.

"He who is firm and resolute in will moulds the world to himself!"  
Goethe.

### A Joke on Fate

So many people believe in "luck" and consider that they are lucky or unlucky as the case may be, alas, generally the latter. They think that Fate has ordered that they shall not have the things they desire and in fact consider themselves victims of a malign Fate and rather pity themselves on that account.

A little better understanding of the workings of the mind would show them that the conclusion that they are unlucky is in fact a suggestion to the sub-conscious mind, and that mind will act upon this suggestion just as if it were true, and so the results will be exactly as if it had been a fact instead of a false conclusion.

Now these same people might better make up their minds that when Fate seems against them they will treat her just as they would one of their acquaintances who is disagreeable. Instead of feeling blue over conditions they deem unlucky, if they would occupy their minds by enjoying those other blessings which they have to the exclusion of any thought of what they failed to

get, they would find themselves quite happy, and when Fate saw that she couldn't harm them she would doubtless feel neglected and might turn around and be kind out of pity.

In that way the joke would be on Fate and if one believes in Luck or Fate he certainly would enjoy playing a joke on her.

The idea of coquetting with Fate is rather an amusing one, but seriously the policy of stopping to enjoy what you have, instead of worrying over what you have not is the key to good luck.

Most of us, no matter whether we believe it or not, really have blessings enough to keep us busy enjoying them if we only would give ourselves time to do so. The trouble with us is, just as soon as we are secure in one possession, we begin wanting another and don't really give ourselves up to the enjoyment of those we have.

When we begin to realize that enjoyment is a condition of mind brought about by harmony with our environment we will see that it can be secured very easily by liking what we have, when we fail to have what we like.

## Good News for our Subscribers, Readers and Stockholders

The Modern Science Publishing Company's Preferred Capital Stock is on the eve of another dividend payment and all who wish to secure this stock should send in their orders immediately in order to be entitled to receive the dividend.

The dividend checks will be mailed before Christmas, so there are only a few days left in which to take advantage of this opportunity to secure stock and dividend.

That the stock will increase in value is now practically assured, for the volume of our business is increasing rapidly, and as a result the stock will be advanced to par on March 1st. The present price of this stock is only \$7.50 per share on a par value of \$10.00 a share.

At this rate we feel that our subscribers should look upon the stock as a rare opportunity to make money. We will receive orders for a single share or for any number of shares up to ten, at \$7.50 each, and if the order comes in before the dividend is paid the purchaser will be entitled to the dividend, thus earning a 7 per cent, return upon the par value of the stock within a few days of its purchase, and having the pleasure of seeing their stock increase to par value within a short period. What could be better? The same thing will prove true of any number of shares ordered, only we warn you that ten shares is the largest number that will be sold to any one person.

# DRAMATIC DEPARTMENT

The Psychology of Acting

NOTE—It is always our aim to put our readers in touch with new things as well as new thoughts. We review the new books in our columns and now we have arranged for Miss Ellis to give us some notes on the new plays each month. These plays, like the new books, are being discussed all over the country and a knowledge of them is part of an up-to-date education. Some of our readers do not live where they can see for themselves and so we hope they will be glad to welcome Miss Ellis' opinions.—EDITOR.

**P**ERHAPS no dancer of recent years has danced her way into the hearts of the New York public as has Miss Bessie McCoy, appearing in the musical comedy "The Three Twins," at the Herald Square Theatre, New York City.

The dances of Miss McCoy are not only peculiarly characteristic, but I understand decidedly original. "The Hypnotic Waltz," which she so gracefully performs with Clifton Crawford, has supplanted the Merry Widow Waltz in popularity and her "Yama Yama" song and dance has won a substantial place in the affections of both old and young.

With Isidore Duncan having portrayed "Iphigenia in Aulis" a revival of the Greek art of 2,000 years ago), at the Metropolitan Grand Opera House, assisted by Walter Damrosch and the New York Symphony Orchestra, and Mary Garden's appearance in the taboored opera Salome at the Manhattan, it may be said that the terpsichorean art has never been so dignified by the condescension of famous stage celebrities as the present time.

In comparison with so many dances and dancers of varied degrees of merit and popularity, Miss McCoy indisputably holds her own, whether by the graceful glide and curves in her hypnotic waltz or the angular postures of her "Yama Yama" man.

## HENRY E. DIXEY AS "MARY JANE'S PA."

A Favorite Comedian in a Pleasing Role.

It remained for a woman, Edith Ellis, long known as a charming story writer, to take Henry E. Dixey's measure for a comedy role unlike any he has ever played, but one that once more enables him to delight his countless admirers of both sexes as much as he did when the name of Dixey was on every theatregoer's tongue in the land. Dixey is going in for real comedy these days and his contract to star under the management of Henry W. Savage has brought him before the public in a most wholesome way and in a pretty little drama that should serve him for more than a season.

He laid aside Molnar's "The Devil" at the Garden Theatre and will be seen no more in the satanic part. Henceforth he will appear as the star of "Mary Jane's Pa," presented by Mr. Savage at the Garden Theatre for a run. Dixey's

role calls for no ruffles or musical comedy tights. All his winning graces, his superb elocution and his mastery of art are devoted to making interesting one, Hiram Perkins, a graceless vagabond and a cynical fellow who has been wandering over the world for ten years and then returns without invitation to the

home of Widow Perkins, where even the girls didn't know Hiram was their Pa, and in the village of Gosport, where some of the neighbors were only too glad to get something on the widow.

Little Mary Jane falls in love with the new cook's rice puddings, and it is she who brings about the regeneration of the vagabond. Miss Ellis has sprinkled her play generously with both comedy and pathos, employing a score of quaint small town characters to help tell the interesting story. The first scene is in Portia's kitchen, the second is at the scrubby newspaper office, and the last act is back at Portia's house after the election, when the opposition candidate she has helped to defeat calls with a mob at his heels and nearly incites the neighborhood to take the man cook and ride him on a rail.

Mr. Dixey is to be complimented for his artistic production of a role that augurs well to become popular with the public.

MISS BESSIE MCCOY IN "THE HYPNOTIC DANCE."

wife and children he deserted. Mrs. Perkins is supposed to be a widow in a little Western town, where she is running a newspaper and helping to elect an honest man to the legislature. Hiram is much in the way, especially in his unsentimental garments, but she hasn't the heart to turn him out. She acts quickly.

"You always did like messing around the kitchen," she says, "so I'll give you a job as my cook at \$10 a month and board, providing you don't let it be known you are my husband. Take it or leave it." She hardly thought he would, but the fastidious Hiram was hungry and longed for a bathtub, clean collars and good things to eat, so he accepted quickly before she should change her mind. Naturally this developed into a pretty how-do-do, both at the

## DO WE EAT TOO MUCH SALT?

Not a few people are foregoing the habit of using salt at the table. They believe that too much salt is eaten.

Common salt, the chemical name of which is chloride of sodium, has been used so long by civilized man that most individuals are led to believe its use indispensable to the human economy.

This is an erroneous belief, as every individual can decide for himself.

It is a wrong inference which leads people to believe that because the deer likes the salt "lick" or the rood-man likes the "flicker," either of these substances is natural or necessary to the human body.

It is a well-known fact that there are numbers of people who never

use salt. The North American Indian whom the hand of civilization has not made unnatural does not eat salt; and many of the people of the more northern parts of Europe and America, as well as Central Africa, have no use for salt.

An individual need go no further than his own experience to learn that salt is wholly unnecessary for the human body.

An appetite for it may be developed to such an extent that the victim may well be called a "salt-eater."

The physiological effect of salt is that of an irritant upon all the mucous membranes of the body, producing a watery discharge. This is the purpose for which salt is prescribed by physicians—as a medicine to irritate, or cleanse by the effect of this irritation, which is only intended to be temporary in character.

It is an interesting fact that salt and cane sugar have practically the same effect as an irritant on the human organism.

Anyone can easily prove the truth of this assertion by snuffing a solution of salt or sugar and water up the nostrils; the profuse discharge which follows is proof of the irritant effect of either upon the mucous membrane of the nose.

What applies to the nose applies equally well to the stomach or any other organ of the body. So that the effect of salt when used in excessive quantities is to produce catarrh of the mucous membranes of the body, and this in time becomes chronic.

There are other minor ailments for which the excessive use of salt is responsible—notably eczema and other rashes of the skin manifesting themselves as pimples and boils.

Frequently the tenderness of the edges of the nose, both within and without the nostrils is the result of the excessive use of salt. And again, the eyelids may be affected from the same cause. The results of the excessive use of salt are to be observed also in what is known as scurvy.

The ill effects of salt are especially apparent upon the kidneys. The dropsy or Bright's disease of the kidneys and certain forms of heart disease are in many instances caused, wholly or in part, by the use of salt.

This explains how a milk diet in kidney diseases so rapidly improves the condition of the patient; the salt which has been deposited in the tissues is washed out, as it were, by the milk. The same is true of the grape cure; the fruit-juice of the grape also washes out the salt from the tissues. Obviously the real cure consists in the fact that no salt enters the system through the diet. With the cause of trouble removed the cure readily follows. The opinion that salt is a necessary aid to digestion is absolutely without foundation, and there can be no question that the excessive and continuous use of salt produces a host of diseases.

"Salt-eating" with a great many people becomes a habit and unquestionably gives rise to serious disturbances of health, which are seldom, if ever, ascribed to eating salt in excess. Unquestionably the less salt one eats the better for the individual.

## Eyesight Restored

EYEGLASSES MAY BE ABANDONED  
A Wonderful Discovery That Corrects Afflictions of the Eye Without Cutting or Dressing

There is no need of cutting, dressing or probing the eye for the relief of most forms of disease, as a new method—the Actina—has been discovered, which eliminates the necessity of former torturous methods. There is no risk or necessity of experiment, as many people's reports have been cured of failing eyesight, cataracts, granulated lids and other afflictions of the eye after being pronounced incurable, through this grand discovery.

Mr. Harry E. Hendrix, Whitneysville, Conn., writes: "One of the leading eye professors told my wife that she would never see with her left eye again. But 'Actina' has restored the sight, and it is now as good as the right one."

Mr. T. F. Moyle, Watertown, Wis., writes: "About two years ago I was tap to with trills in both eyes and nearly went blind, and it was thought I was incurable. I sent for 'Actina' last April and it has taken all the inflammation out of my eyes and now."

Mr. A. O. T. Donahue, special agent Mutual Benefit Life Insurance Co., Kansas City, Mo., writes: "Having used 'Actina' for several years, I enthusiastically recommend it for the cure of eye and throat ailments. It cured my mother of cataracts."

Hundreds of other testimonials will be sent on application. 'Actina' is purely a home treatment and is self-administered. It will be sent you trial, postpaid. If you will send your name and address to the nearest American Co., Dept. 253, 311 Walnut St., Kansas City, Mo., you will receive absolutely free, a valuable book—Prof. Wilson's Treatise on Disease.

## THE POWER OF EXPECTATION.

By  
**JULIA SETON SEARS, M. D.**

**C**OME TOGETHER, the things we want in this life is to expect them.

Expectation is a great magnet and plays a greater part in the scheme of attraction than is commonly imagined.

In the past we spent most of our time in longing for what we wanted, crying because we did not get it, and the intermediary hours were filled with fear that we would not get it. To want a thing, and long, and grieve and fear, is just the way to drive it from us, and it is commonly known that the things that we fear come upon us.

The way to get what we want is, first, to know what we want, and know it without any chance of being mistaken; then holding our mental picture, daily build this thought into consciousness, and never lay it down until the thing manifests for us; if we change our mind, or grow doubtful, we send it past us by our altered position.

As soon as we know what we want, and have built up the perfect image, then the next step is to begin to expect it; not fearfully, or trembling, but calmly with a confidence that cannot be changed by time, opinions, or delay; no matter how long we have to wait, we should fill each hour with the joy of expectancy, and live as though the thing we desired was really our own now.

We do not do this from the plane of the will alone; the will only acts as the power which keeps the desire before us, but we combine with it faith which feels that it is ours, and then we go farther in the feeling of ownership and know that by every divine law it is manifesting for us NOW. This is consciousness, and when we expect with the union of faith and will, we keep ourselves in the direct line of divine transference and nothing can keep our own away from us.

After we have taught ourselves to live in perfect expectation, we will slowly come to pass into a sense of "being" the very thing we seek; we are no longer a magnet attracting it to us but we become joined with it, and seem to be a part of

it naturally, and all sense of separateness is lost.

As soon as we really feel an expectation so great that we sense possession alone, we are under a law of attraction so high that it will not be long before the thing we are expecting will reveal itself for us.

In order to attract the things we desire into our life, we need to quit our vague longings and fears and doubts, and just become one inspiringly with what we want. We need to know that the ALL-WILL wants us to have whatever we want, and will help us to get it as soon as we have consciousness enough to use the power with which we have been endowed.

All we need to do is to make our demand to the Universal Mind and expect it to be filled just as soon as we make the lines of transference to ourselves, through constant thinking, and living always in the great universal expectation and sense of natural ownership.

Fear and vague "perhaps" and "Oh, I do hope it will be mine" will never bring things over to us; all the beautiful, happy things of a life will not be born of lizard energy; they demand the eternal expectation and recognition of at-onement; wherever we can say from the depths of an unflinching expectation "THY KINGDOM COME," it will come.

## ETERNAL JUSTICE.

We find as life grows weary  
And troubles press 'round us hard,  
That every sin is punished.  
Each virtue gains reward.

The day may be long in coming  
Or the sin may be hidden away,  
But every word we say  
There comes a Judgment Day.

We may suffer from cruel injustice.  
But there always comes a time  
When wrong will be righted.  
For the Infinite plan is sublime.

And every word of kindness,  
All help to the helpless one.  
Will somewhere find its payment  
Before life's day is done.

We need not wait for Death's angel  
To set all wrong things right.  
The scales are evenly balanced,  
And day will follow the night.

We may bear for years in silence  
The wrong by others done.  
But the penalty for their sinning  
Will be borne by them alone.

We may wait so long for the blessing  
That follows a kindly deed,  
But we think it will somehow miss  
The hour of our need.

When we sigh for a ray of sunshine  
To lighten our lonely way,  
It will come and be all the sweeter  
For waiting the wearisome day.

No sin can go unpunished,  
For justice is part of the plan.  
That works through life and always  
For the good of every man.

And one cannot sin in darkness  
While another bears the cross,  
Nor one have eternal sunshine,  
And another eternal loss.

A sinner above our vision  
Will hold the scales right  
And evenly will balance  
The darkness and the light.

We shall find when our eyes are opened  
Beyond our life's brief span,  
That there can be no injustice  
In the grand immortal plan.

"By George, I never saw anything like the effects of that new treatment, Proton, for the building up of weight and lost nerve force." It acted, more like a miracle than a medicine, said a well known gentleman yesterday in telling of the transformation that had taken place in this condition. "I began to think that there was nothing on earth that could make me fat. I tried tonic, digestives, heavy eating, I ate, milk, beer and almost everything else you could think of, but without

result. I had been thin for years, and began to think, it was natural for me to be that way. Finally I read about the remarkable processes brought about by the use of Proton, so I decided to try myself. Well, when I look at myself in the mirror now, I think it is somebody else. I have put on just 30 pounds during the last month and never felt stronger or more 'nervy' in my life."

Proton is a powerful inducer of nutrition, increases cell-growth, makes perfect the assimilation of food, increases the number of blood-circulances, and as a necessary result builds up muscles and solid, healthy flesh, and rounds out the figure.

For women who can never appear stylish in anything they wear because of their thinness, this remarkable treatment may prove a revelation. It is a beauty maker as well as a form builder and nerve strengthener.

If all cost you nothing to prove the remarkable effects of this treatment. It is absolutely non-injurious to the most delicate system. The Proton Company, 774 Protone Bldg., Detroit, Mich., will send to anyone who sends name and address a 50c package of Proton, with full instructions to prove that it does the work. Why will also send you the book "You Are Thin," free of charge, giving facts which will probably astonish you. Send coupon below today with your name and address.

# REINCARNATION

## FROM THE SCIENTIFIC VIEWPOINT

A Lecture on some of the Natural Laws and Facts of Life that show Reincarnation to be a Logical and Necessary Part of Human Evolution.

By L. W. ROGERS.

### PHYSICIAN-SCIENTIST.

Note.—Mr. L. W. Rogers, Editor "American Theosophist," former President of the Pacific Coast Theosophical Society, has been doing public work for the Theosophical Society of Union, Mrs. Anne Besant, of Aitah, India, is President, has been giving series of lectures in New York City under the above title. Delecting our readers would be interested in knowing what the organization founded by Madame H. P. Blavatsky in 1875 stood for, the Modern Science Publishing Co. has obtained permission to print some extracts from the series as space may permit. The General Secretary of the Theosophical Society, Dr. Weller Van Hook, Chicago, Ill.

### PART II.

OW can a perfect humanity be produced? How can the ignorant become profoundly wise, the selfish become just and the cruel learn the path and compassion? Think a moment of the stupendous change to be made in the race, of the gigantic task evolution has to accomplish in raising all men to god-like perfection, and say whether it can be done in one short physical life!

We can look back upon our lives and see that the world is a school of experience in which we have learned a few lessons. There are none of us but can see mistakes we should be too wise to make again; none who have not learned lessons from the sorrows and heartaches of life that will forever make them more gentle and compassionate. But think of the experience we must yet have to live in perfect peace with all mankind, to never feel the least resentment, to literally "love thy neighbor as thyself," and to acquire all knowledge, knowing that what we now possess, compared to what lies beyond our present grave, is like a grain of sand upon the shore.

Clearly, these stupendous lessons can not be acquired in one physical life and equally clear is it that it would not be in accordance with nature's law of the conservation of energy to pass us on to other realms until we have learned the lessons here. If we human beings are too wise to send our children to the university when they still have lessons to learn in the kindergarten, we may be sure there are no such blunders in the economy of nature.

How, then, are these lessons of earth to be learned? By coming fresh to the task life after life as a child goes to his school day after day. So, following the laws of development and the movement in cycles that apply to all things from atoms to suns, we live through a physical life in which we accumulate a certain amount of experience. We then pass through the change called death, but which is merely the dropping of the physical body, without in the least affecting our consciousness, into a comparatively

brilliant intermediate life in the astral world where a process of purification goes forward. Here we sink gradually into another change in which the astral body is also left behind and the real man, the consciousness, thinking being, passes tranquilly into the mental plane or the heaven world for a very long period of rest and assimilation. Then finally exhausted he is through the operation of certain natural laws, drawn back into life in the physical world again and thus continues the journey through this cycle of alternating activity and rest, but at a higher point of evolution than he has ever before reached.

By this method alone does sustained and permanent progress for the race seem possible. Both the materialistic theory with its annihilation of the individual consciousness, and the theological idea of each soul passing into eternity with its medium of knowledge to return no more, certainly fall short of the requirements of race evolution. But by reincarnation there is a perfect conservation of energy and constant progress. No single lesson, no fragment of experience, is lost.

Let us now turn our attention from showing that reincarnation plays a harmonious and necessary part in evolution to some of the reasons why the theory given us by the theosophists is not in harmony with the laws of nature. One of these is that what is called the plan of salvation is not successful. Yet we know that nature, which is but the manifestation of Deity, does all things well. Certain means are precisely adapted to certain ends. But, according to the theologians, the great mass of humanity misses salvation. Only a small percentage is saved. God is represented as all-powerful and all-loving and desiring the salvation of all the meanest sinner, yet nearly the whole race is lost. No plan that is so palpable a failure can be the true one.

Another trouble with this theory is that the small percentage of humanity that does come through successfully must do it vicariously, not saved by their own merit, but by proxy. Vicarious atonement can be neither just nor efficacious. Such shirking of responsibility is dishonest and necessarily a failure. It is in violation of all of nature's known methods. No moral quality can be possessed and enjoyed unless it is earned, any more than one can eat another's food and do another's physical growing for him. We know that it is one of nature's laws that inaction is punished with atrophy and that shirking responsibility, as illustrated by parasites, leads to degeneracy and decay.

Another difficulty with this theory is that it fails to satisfy our sense of justice. It holds that the soul of man is created at his birth; that he is left free to choose the good or

evil during his lifetime, and will hereafter be held responsible for his choice. If all men came into the world with the same mental and moral equipment and during life encountered the same temptations it would be a very different problem we have to deal with. But when this is not so then there is no justice in such a theory of life. One is born in a palace and another in the slums. One is a genius, the other is stupid. One has all the advantages of wealth, the other all the handicaps of poverty. One is surrounded from birth with moral influences under which he can scarcely go wrong if he tried and the other is surrounded by immoral companions among whom he could hardly be honest, if he would. One is well clothed, well fed and lovingly cared for. The other wears rags, subsists upon crusts and is treated like a beast. If two such boys start in life, even with the same mental and moral equipment, it is almost certain that one of them will be a moral success and the other a moral failure. To reward the one who could hardly have gone wrong had he tried and punish the one who had no fair chance to do right, if he would, shocks our sense of justice.

Moreover, if they do come with such inequality from the Creator there is no justice in the original condition of these souls. Fairly aside from the question of future reward or punishment, why should one be dowered for life with wealth and the other cursed with poverty? Why should one be gifted with genius and the other blighted with stupidity? Why is one given the face and form of an Adonis and the other a distorted body and the features of a fiend? Let us not be so illogical as to say that this is the unmarred work of a just, all-loving and all-powerful Deity. Is it not better to assume that under the old theory we have not found the true explanation of these apparent injustices? That two souls thus appearing on earth, the one with such enormous advantages and the other with such terrible impediments in the struggle for the goal of heaven, do not come thus from the hand of God, and that upon closer examination we shall find a satisfactory reason for these striking differences?

When we see such inequalities between human beings we very beginning of this life we feel that there must be a reason for it if it can but be found. There is a reason and the hypothesis of reincarnation makes it clear without charging God with such palpable injustice. When we remember that these two souls have come up to their present condition of development through thousands of years of evolution and that the genius of the one is the result of his striving through many lives, while the stupidity of the other is the natural

result of his neglect and indifference through a like period, then the apparent injustice vanishes and we see that it is reward of merit in the one case and the incurring of penalty in the other. Each is just what he has made himself. It shows that we ourselves, and not the Creator, are responsible for what we now are. If one begins this particular life surrounded by moral influences and another by evil influences it is the natural result of the course of each in past lives. The one who has aspired to lofty things, who has unselfishly sought to help others, who has lived truly and nobly, will naturally be born again in the midst of such conditions. The one who has sought the association of the immoral and depraved, who has been intensely selfish and cruel, quite as naturally comes back into like surroundings. So the partiality is merely apparent. No favoritism has been shown the one and no injustice has been done the other. One is where he has come by merit and the other is where he is for the want of it.

## SELF-CURE FOR DRUNKENNESS.

(From Hypnotic Therapeutics.)

An alcoholic addict, actuated by a sincere desire to break the shackles of the demonism and go forth with capacity for the higher joys of life, is urged to think persistently as he is falling asleep in lines like these:

"Whiskey is unnecessary to my physical well being; it is creating structural changes in vital organs; it is destroying my mentality and blunting my moral sensibility. I do not need it, and shall no longer use it either in mere bravado or to hide from my vision conditions that are insufferable. I shall depend legitimately on the units of energy legitimately manufactured out of nutritious food, good air, exercise and sleep. I am done with alcohol once and forever. The appetite for it is destroyed in my being, and I no longer admit capacity for temptation. From this hour it shall be impossible for me either to desire or to take a drink for any conceivable reason. I do not want it. I do not need it. I shall not miss it."

## SMILE.

**S** MILE, and the world smiles with you.  
"Knock" and you go alone;  
For the cheerful grin  
Will let you in  
Where the kisser is never known.  
Growl and the way looks dreary,  
Laugh, and the path is bright,  
For a welcome smile  
Brings sunshine, while  
A frown shuts out the light.  
Sing, and the world's harmonious,  
Grumble, and things go wrong,  
And all the time  
You are out of rhyme  
With the busy, bustling throng.  
Kick, and there's trouble brewing,  
Whistle, and life is gay.  
And the world's in tune  
Like a day in June  
And the clouds all melt away.  
—Tengwall Talk.

## DEPARTMENT

of Scientific Astrology  
Conducted By  
Prof. A. H. Postel

## GENERAL WEATHER INDICATIONS FOR DECEMBER.

DECEMBER opens with unsettled weather. 3rd to 6th gusty; 7th to 9th, downfall; 10th and 11th misty, downfall; 12th breezy, fair; 13th and 14th changeable; 16th and 17th variable, breezy; 18th to 22nd, fair, seasonable; 23rd to 25th, stormy, unsettled; 26th, variable; 27th to 31st, gusty, changeable.

STORM PERIODS: 2nd or 3rd, 7th, 17th, 23rd, 29th to 31st.

## LUNAR INFLUENCES FOR DECEMBER.

Planets in good aspect with the Moon.

The 3rd, 13th, 18th, 28th, the Sun.  
2nd, 12th, 18th, 23rd, 28th, Mercury.  
10th, 15th, 25th, 30th, Venus.  
9th 14th, 24th, 29th, Mars.  
5th, 10th, 20th, 23rd, Jupiter.  
6th, 11th, 21st, 25th, Saturn.  
1st, 5th, 15th, 20th, 28th, Herschel.

## BIRTHDAY INFLUENCES.

This month there are very few positively favorite birthdays, the best being the 15th, 18th, 21st, and 31st. The 7th brings some financial loss, heavy expenses, and risk of lawsuits. The 22nd to 25th threaten illness or misfortune, which must be guarded against as far as possible. The position of JUPITER at the end of the year benefits persons who were born about the 8th of September, or when the MOON held the middle of the sign Virgo. Those who were born about the 7th of January, must be wary in all new business and should study well their 1909 Annual Reading in order to take advantage of all the favorable vibrations. Those born under SCORPIO will also be under restless planetary aspects, CANCER people should look well to their chart and be careful of health.

These indications are from general aspects; your Horoscope for 1909 will give you in detail the good and evil influences, with dates and particulars.

## FREE ASTROLOGICAL READINGS.

Our readers can obtain a short reading from Prof. Postel free of charge by addressing a letter to his office. In writing for a free reading, be sure to state the date, month, year, and if possible, the hour of your birth; whether married or single, and also your sex.

Address your request to Albert H. Postel, Dept. B. R., No. 126 West 24th St., New York, N. Y.

## QUALITY NOT QUANTITY.

**B**ELIEVING that the widespread demand for Astrological readings is evidence of a growing revival in the study of natural laws of vibration as understood and taught by the ancients, and realizing that the commercialism of the age demands "Quantity" at the expense of "Quality," I have for several years studied the problem of how to give my patrons a horoscope reading which would combine both Quality and Quantity. I am aware that many so-called Astrologers simply give what in the phraseology of the profession are termed "stock readings," without regard to the individual differences of birth dates and the annual aspects of the planets acting upon the sign for which these readings are made. Those of course are valueless both in the trial and More Complete Horoscopes.

From an experience covering over 80,000 lives which have come up before me both in my private and public practice, I have found that as far as the solar sign is concerned, a stock reading answers the purpose for a general character delineation. This, however, did not satisfy me. I have, therefore, perfected a system whereby I grade my readings in order to give the greatest value for the sum expended, and every reading which I send out is given for the date and time of birth of my patron with due regard for the aspects in force at the time.

It has been the custom among certain so-called Astrologers where a reading was asked for to send out indiscriminately the same solar reading to all born under the same Zodiacal sign. Under this system every person born in the same month received the same reading throughout, irrespective of the year or hour of birth. Under my present system, since each case is treated according to the date, year and hour of birth, this cannot happen more than once in a thousand readings, and this is the proportion in which twins occur—according to government statistics for the year 1906. You will thus see the advantages of my system over the old, based as it is upon a natural mathematical law.

Under my new system the date of the month as well as the hour and the yearly transits are taken into consideration, thus giving a reading more accurate and satisfactory.

Astrological advice and calculations from the life chart are almost limitless, as the planetary conditions and vibrations in our lives are constantly changing. New conditions and new ventures in marriage, business and all other affairs of life

make it necessary to answer special questions as those events or conditions occur.

Questions may come up regarding business, contracts, marriages, legal matters, social affairs, changes, corporations and journeys. You may want to compare the Horoscope of some one with yours to see if the party is suitable for marriage, friendship or business association.

The trial readings being merely introductory do not of course answer questions.

It is my custom at the beginning of each year to calculate the various aspects operating for the current year on each solar and rising sign. This gives me the general indications for the year, the other indications are of course given in the More Complete Horoscope in which the same procedure is followed, adding the aspects and indications relative to the questions asked according to the grade of horoscope ordered.

Many of my readers have doubtless received one of my "free" life readings, which are given in return for securing subscriptions to MODERN MIRACLES. These readings are very satisfactory, as hundreds of letters prove, but the higher grade readings are of course more complete and answer questions according to the grade of reading ordered; calculations are made for each reading ordered, be it the "free" premium reading or the higher grade work.

In each case it is always my aim to give for the money expended as complete a reading as possible, and I feel that you will agree with me when you have read one of my readings that I have succeeded in accomplishing my desire. If I please you, tell others—I if I don't tell me. It is my desire to satisfy all my clients. I have pleased and helped others. I know I can you. If you desire a free trial reading for yourself or friend, you can obtain one by complying with notice under heading "Free Astrological Readings" printed elsewhere on this page.

## STUTTERING TIME.

A prominent Frankford physician undertook to cure a boy of stuttering.

"Well, John, do you stutter?"  
"Yo-vo-vo-vo, d-d-d-doc-doctor."

"Do you always stutter, John?"

"S-s-s-no, d-d-d-doc-doctor."

"Well when do you stutter, John?"

"On-on-only wh-wh-when I-I-I-t-t-t-talk, doc-doctor."

## YOUR DECISION.

We hope that our readers who enter MODERN MIRACLES themselves will think that others would enjoy it and will remember this when deciding about Christmas gifts.

We want you to study his forecasts weigh carefully his arguments, and benefit by his prophecies. His accuracy has placed Professor Postel among the foremost ranks of astrologers in the world. Be guided by what he says and you will be successful.

"My youth was ever constant to one dream—  
That in the ripeness of my days I might  
Something achieve that the world  
Require for my existence."

**T**HE New Moon on the 23rd ult. in true or good aspect to Saturn, is good for trade conditions, bringing more satisfaction and settled state of affairs along all lines.

Publishers and the mail business will benefit by Venus and Mars in conjunction in the 3rd house.

Saturn in Aries is evil for England, and those born in the early degrees of the sign.

The coming year, especially to those of the close, will be a trying time for London when Mars adds its influence to the figure, unusual fires and local disturbances should be guarded against, the murmur of the masses will swell to such a volume that unless early steps are taken to relieve the conditions existing, London institutions will suffer serious loss and many lives will be sacrificed. It is the most serious influence of modern times and should be taken in time, and the time is NOW.

The eclipse of the 23rd indicates volcanic disturbances, earthquakes, and severe storms for the Southern Hemisphere, also severe cold in northern latitudes the last of December or early in January. Colds, influenza and rheumatic conditions will prevail and should be guarded against.

Herschel's position indicates accidents in the Navy. Saturn threatens shipwrecks and more than usual precautions should be taken by sea going vessels.

Herschel's influences tends to restlessness in China, India and Turkey. Jupiter benefits those born under Virgo, and stimulates trade and general business. Secure your 1909 Reading early and prepare for the busy year to come.

## GENERAL LOUIS BOTHA.

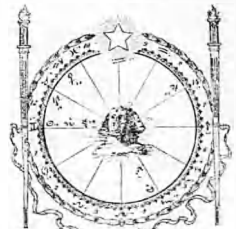

June 3rd, 1854.

**G**ENERAL LOUIS BOTHA, Prime Minister of the Transvaal, declared that "The question of the flag and of the supremacy have been settled for all time. They are now outside of politics. We are now concerned with our domestic affairs."

Even under Gemini, quick to act and yet cautious and executive as expressed by the Moon in Virgo, diplomatic and tactful, General Botha has unusual ability to carry out the re-habilitation of the South African Colonies.

Just now the way is tedious and the planetary forces retarding.

The famous prediction made at the beginning of the war by President Kruger, that the price which Great Britain would have to pay for the subjugation of the Boers would stagger humanity, was fulfilled to

the letter. Millions upon millions of money were spent, the British taxpayers loaded with burdens they could ill afford to bear, and the slaughter of her soldiers, nothing less than terrible. Thousands of her best and bravest men, the flower of her armies, were made a sacrifice in this iniquitous war. She found the Boers true fighting men, and far more than the equals of her own

soldiers, man for man. Victory after victory was won by these brave burghers of South Africa, and it was not until Great Britain, pouring one regiment after another into the Transvaal overwhelmed them by force of numbers, drove their women and children into camps and resorted to methods of warfare which threatened complete annihilation

## THE NATURAL LAW OF CURE

### How Cures are Effected Through the Chemistry of Life

A shadow cannot be removed by chemicals; neither can disease be removed by poisons. There is nothing (no thing) to be removed in either case; but there is a deficiency to be supplied. The shadow may be removed by supplying light to the space covered by the shadow.

So symptoms, called diseases, disappear or cease to manifest when the food called for is furnished.

The human body is a receptacle for a storage battery, and will always run right while the chemicals are present in proper quantity and combination, as surely as an automobile will run when charged or supplied with the necessary ingredients to vibrate or cause motion.

The cell-salts are found in all our food, and are thus carried into the blood, where they carry on the process of life, and by the law of Chemical Affinity keep the human form, bodily functions, materialized. When a deficiency occurs in any of these elements, through non-assimilation of food, or action of liver or digestive process, dematerialization of the body commences, which has been termed disease. It is a deficiency in some of the chemical constituents of the body that carry on the chemistry of life, and not an entity.

A lack of these elements, or a lack of proper balance, is the cause of every disease that affects the race. The different symptoms manifested in disease, to which medical science in the past has given names without end, are produced by the identical cause—namely, a deficiency in some of the constituents of the blood.

The biochemic treatment cures any and all diseases that are curable, and the pain and discomfort of incurable cases can be greatly relieved by aiding nature with blood and nerve food.

Send 2 cent stamp for circular on Bioplasma, a combination of the 12 cell-salts of the human organism in same proportion found in ashes of body after cremation.

tion that the Boer leaders consented to terms of peace.

The Boers have been conquered, but the world will always award them the highest honor for their noble struggle against such awful odds. They made a noble sacrifice in the cause of human liberty, and taught Great Britain a lesson which will never be stricken from the pages of her history.

General Louis Botha, who fought so gallantly in the Boer war, to save the independence of the Transvaal, is now the first premier of the Transvaal Parliament. General Botha makes an excellent premier, and is as good a statesman as he was a fighter. The Dutch element stands firmly with Botha, who is respected by his political antagonists, and a new era has dawned on the former republic destined some day to be the United States of South Africa.

## EPILOGUE.

It is good, dear heart, to have seen the sun,

To have felt one's youth and the joys thereof:

To have dreamed fair dreams, when the day was done.

Of the world-old miracles, hope and love.

It is well to have known pain's icy breath.

To have measured with sorrow, face to face.

To have learned grim truths from the lips of death.

To have heard care follow, and won the race.

And now, at the last, when the sun rides west.

And time and the twilight let down the bars

That guard the crossing—ah me, it is best

To pay toll of all to faith and the stars!

—Charlotte Becker.

## PLANETARY INFLUENCE.

The influence of each planet is as follows: Mercury and the moon refer to mental qualities and their aspects to each other and to other planets determine the quality of the mind. Venus refers to marriage, children, friendship and to whatever her home may be ruler of Mars refers to accidents, quarrels, lawsuits, losses, etc. Jupiter refers to finances, honors. Saturn refers to sickness, work, diseases, love of science, etc. Uranus or Herschel refers to real estate, traveling, occultism. Neptune refers to journeys on water, moist diseases, veneration. If Mars rules the tenth house, which is the house of the mother, or profession, and Mars is in Aries in good aspect to Jupiter after the Sun and Venus, we would find the mother had good characteristics, good health, etc., and the native would love things of a mechanical nature, or would, if circumstances allowed it, make a good lawyer, surgeon or would be prominent in the military.

**Advanced Case of Consumption Cured in Four Months.**Sept. 12th, 1907.  
Lung-Germine Co., Jackson, Mich.

Dear Sirs: I feel it my duty to write you that I have been saved from the grave by Lung-Germine. Every one that saw me thought that I would die in a short time, and my doctor told me he could not help me. Analysis of my sputum by the State Board of Health showed that thousands of tuberculous germs were present. I was having hemorrhages very bad, and fever 103 every day.

I heard of Lung-Germine and began its use. At the end of two months my cough was all gone and I was gaining very fast. I sent another sample of my sputum to be analyzed, and the reply came back that there were no germs whatever. When I began Lung-Germine treatment I weighed 85 pounds. I used the treatment four months in all and to-day I am well and strong. I weigh 115 pounds, and can truthfully say that I am completely cured of consumption by Lung-Germine.

Yours very truly,

MRS. LUCY RUNDY.

**Gains 20 Pounds in Weight, and is Completely Cured in Four Months.**Sept. 2d, 1907.  
Lung-Germine Co., Jackson, Mich.

Dear Sirs: Four months ago I was down sick, and Lung-Germine has cured me. When I first wrote you I was in bad condition. I had night sweats, coughed a great deal, spit up blood, had pains in my sides and under shoulder blades, and was very weak. After using two months' treatment of Lung-Germine I could walk quite a space, and had gained considerably in flesh. I commenced using Lung-Germine on the 25th day of April. I then weighed 105 pounds. I now weigh 125 pounds and that is as much as I ever weighed. I am cured, and only two bottles of Lung-Germine cured me.

I wish to thank you very kindly for what you have done for me and the kindness you have shown me at all times during my treatment.

Very gratefully yours,

ARNOLD KINSELMAN.

**Cured of Consumption Five Years Ago. Not a Single Symptom Has Appeared Since.**July 30th, 1907.  
Lung-Germine Co., Jackson, Mich.

Gentlemen: In response to your inquiry I can say that Lung-Germine cured me completely and permanently of what was pronounced by my attending physicians, GENUINE TUBERCULOSIS. I used only two bottles of your Lung-Germine, and this I took in March, 1902, so you see it is over five years since I was cured, and there is not the slightest indication of a relapse, and not a single symptom has returned.

Before using Lung-Germine I was losing flesh very rapidly, had night sweats, and I had two hemorrhages. I express what your medicine has done for me, and I hereby give you permission to publish my letter if you wish.

Yours sincerely,

WM. BRIDGEMAN.

**Chronic Bronchitis and Lung Trouble Cured Three Years Ago, and Patient Remains in Perfect Health to This Day.**

Following are a few extracts from a letter which we received recently from Mrs. H. C. Boid, of Castro, Texas: "I was permanently cured of lung and throat trouble by your Lung-Germine three years ago, and I am glad to say that I am feeling fine as silk, and I have not even suffered with a cold to amount to anything since I was cured. Before using Lung-Germine I had tried almost every known remedy and several of our best doctors, without relief, and I had lost all hopes of ever getting well. I recommend Lung-Germine as well. I recommend Lung-Germine as the only medicine in the world that gives permanent relief."

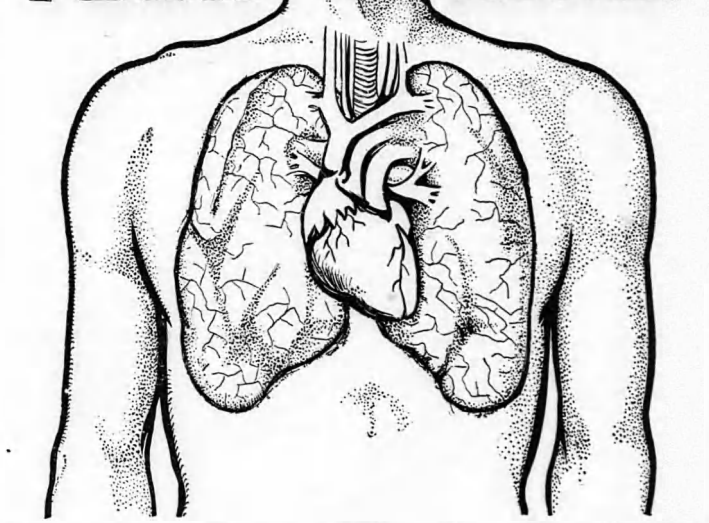

**Mother and Son Cured Five Years Ago. Perfectly Well To-day.**July 1st, 1907.  
Lung-Germine Co., Jackson, Mich.

Dear Sirs: As to the condition of myself and mother, I can say that we are both in normal health. In the year 1903 we were cured of chronic consumption by your Lung-Germine. Before using Lung-Germine we were treated with the best physicians in Jackson, and seemed to get no relief, to say nothing of a cure. One physician told my father that nothing more could be done for my mother, who being in the last stage of consumption, I saw the second stage of consumption. After getting this information Lung-Germine was recommended to me, and I began its use. The result was that we were both cured completely and permanently. No trouble of this kind has been felt since we were cured, which is now about five years ago.

I still ever be enthusiastic over Lung-Germine. I recommend it to anyone who has lung trouble in any form. No matter how advanced the case is, I believe it is never too late to give this medicine a fair trial, for it certainly has been successful in our cases, one of which was an advanced case. Yours very truly,

ALONZO DECKER.

male weakness and piles. She was besieged by so many women needing treatment that she decided to furnish it to those who might call for it. She started with only a few dollars capital, and the remedy, possessing true and wonderful merit, producing many cures when doctors and other remedies failed, the demand grew so rapidly she was several times compelled to seek larger quarters. She now occupies one of the city's largest office buildings, which she owns, and almost one hundred lady clerks and stenographers are required to assist in this great business.

## Why Men Desert Their Wives

Eighty Per Cent. of the Wife Desertions and Divorce Due to Female Weakness.

I should have taken better care of myself, I suppose. I was sick and suffering. So one but a woman can ever know how I suffered. I was irritable. I couldn't be to my husband the wife that I ought to have been. He, being a man, couldn't understand. We drifted apart. He sought his pleasures elsewhere. Finally there was nothing but the divorce court that could settle our differences.

That's the sad story that eight out of every ten women who have passed through the ordeal of the divorce court as well as the countless thousands of deserted wives who are not divorced, know deep down in her heart was the real cause of her trouble.

A sick wife, a neglected home, and the publicity and disgrace of the court room to end it all. There wouldn't be half as much talk of the divorce evil in the world if only every wife and mother would realize her duty to preserve her health and strength.

No woman has the right to expect her husband to devote his leisure hours to his home and her vice is leading a dragged-out, hopeless, down-the-mouth existence that would discourage the weakly or timid on earth.

Mrs. Cora B. Miller's marvelous home remedy has done more to prevent divorce than all the messages to confess and contrite. It has made the woman who is bright and cheerful and has lost her health, and reduced her own good feeling and discontent finds no place therein.

Mrs. Miller's aid and advice is as free to you as God's sunshine or the air you breathe. She wants to prove to you her common-sense home treatment will cure you just as surely as it cured her years ago in her humble cottage.

If you are a sufferer from any female trouble, no matter what it is, send the coupon below to Mrs. Cora B. Miller at once.

### Put Your Faith in Mrs. Miller

My word that my home treatment should unfailingly relieve you of female diseases or piles doesn't necessarily mean anything. So put your faith in that sort of a remedy every time. You can't lose. Send it today and prove what this marvelous treatment will do for you.

Conducted by Carolyn Hart.

### WHY WORRY?

GEORGE LINCOLN WALTON, M.D.

DR. WALTON announces in his preface that it is not his object to "transform the busy man into a philosopher but rather to enable him to do his work more effectively by eliminating undue solicitude."

With this object in view the author has made an extended analysis of worry, tracing it to its various causes. These causes are taken up under various heads as they appear to the medical man with special opportunities for observing nervous people. His classifications are such as appeal to the reader as unusually just and if many who are inclined to worry would read and apply the proper classification to their own brand of worry they might be able to overcome the tendency, in some measure at least.

The Doctor says that the great difficulty in the way of recovery is the victim's own opposition to the means that would result in his relief. He counsels the victim of the worrying habit to use his own initiative to overcome the faulty mental attitudes that lead to worry.

Worry is defined as "a condition of undue solicitude." The realization of the qualifying word *undue* will answer the objection of those who claim that they cannot help it.

The author shows how many people practice quite the opposite of self control and indeed give themselves unconscious suggestive treatment to aggravate their trouble by giving voice to it. He speaks of the great waste of vital energy expended in these habits of thought. Toward the end of this most interesting and instructive book the remedies likely to prove most effective are taken up. Among these remedies the cultivation of a commonplace attitude of mind is recommended, also the suggestion that even if the worst feared were to happen it would hardly be as bad as the condition resulting from worry.

Dr. Walton further recommends the cultivation of a "fad" by way of distracting the thoughts and thus giving the mind a much needed rest from its insistent habit.

Since worry has been called "The disease of the age" we may do well to read this book and recognize to what extent we may be the victims of Hypochondria or Obsession, and with this realization should surely come an earnest desire to heed the warning and make use of the author's suggestions to overcome tendencies we may discover we have been assiduously cultivating.

The price of this book in cloth binding is \$1.10.

### THE RISE OF MAN.

(A Sketch of the Origin of the Human Race).

By PAUL CACER.

In this book the author cites the various theories of evolution and gives many pictures to show the

resemblances and differences between primitive man and various animals. It touches upon the relics of the various pre-historic periods and the opinions of learned men as to the conclusions to be drawn from them. All this is done in a spirit of investigation and fair-mindedness rather than in the support of any theory and the book offers an eminently fair as well as extremely interesting exposition of a subject in which many people are specially interested.

The author in his concluding chapter sets forth his belief that man rose from a brute condition by virtue of superior qualities rather than, as Prof. Huxley claims, on account of his fierceness and cunning.

The love of wife and child or of his tribe, the writer claims, was the basis of savage man's fury against the enemy. This, then, was the beginning of the refined sentiments of love, kindness and sympathy, and as such lead to the development of a higher type and the learning, as ages passed, of the lessons of civilization.

The price of this book is \$1.00.

### A Free Treatment To All Who Ask

If you are sick—if you suffer—if you are afflicted with any ailment—if you are worn out, tired or failing—if you have an ache or a pain—if you need medical advice—if you are not in perfect health—if you lack the energy, vim, vigor and "go" that make life worth living; whether you are rich or poor—old or young—man or woman, read what I have to say, hear what I have to offer you.

### Positive Proof Without Price

I have probably had more experience and more success than any living physician, but I don't ask you to believe that. I don't ask you to believe that my remedies are better than others. I don't ask you to take my word for anything. But I do ask you to give me a chance to prove my ability—to prove what my treatment will do for you—to prove that I can cure you—and to prove it at my own expense—to pay the cost, every penny of it myself. I ask permission to send you—to deliver into your hands—absolutely without cost to you a proof treatment that will convince you. Remedies that have cured thousands, remedies that I believe will cure you.

### May I Send The Proof?

This is all I ask. No money—No promises to buy—No papers. On the virtue of my treatment I base my reputation. On your gratitude and honesty I base my hope of reward. I hold the records of thousands of cures—not "some better," but cured to stay cured—restored to perfect health. Is the prospect of being hearty and strong and big and well worth a few minutes of your time and a two-cent stamp? That's all it costs. Don't let the opportunity pass.
